

**HERE'S
THE FILE
YOU'VE
BEEN
MISSING**

How FileMaster Works...

Unlike traditional bar code systems, FileMaster uses an "intelligent" RFID tag which can be read through a file folder. Without having to scan individual bar codes, multiple files can be read, dramatically reducing the amount of time taking inventory or searching for files.

User-friendly software provides all the information you need at a glance to manage any file system, large or small.

The long-range reader identifies personnel and files for authorization at exit locations.

The desktop reader speeds batch check-in and check-out.

The portable hand-held reader makes it easy to take a quick inventory or find missing files, even if they're in the middle of a stack.

Without Checkpoint's RFID-based file management system,

FILES AREN'T THE ONLY THINGS YOU'RE MISSING.

SUGHRUE MION, PLLC, NEVER LOSES A CASE.

At 12,000 files and growing, the central file room needs at the intellectual property law firm of Sughrue Mion, PLLC, were very demanding. With RFID-based file tracking, the firm performed batch check-in and check-out 30 times faster. They also increased productivity by 500% when taking a complete inventory, reducing man-hours from 32 to 6½.

If you're using a traditional file management system to track and inventory files, chances are you're losing more than critical information. You're also losing valuable time and money.

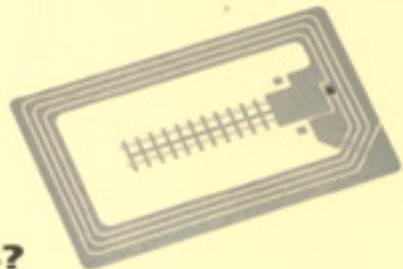

With **FileMaster**, the new RFID-based file management system from **Checkpoint Systems, Inc.**, you'll never lose a file again. Because files can't hide from **FileMaster**.

FILE MASTER BOOSTS PRODUCTIVITY— AND PROFITABILITY.

With **FileMaster**, you'll save time and money every time you need to locate a file. A few of the benefits include:

- more efficient file retrieval—no more time wasted hunting and guessing
- faster check-in and check-out
- reduced man-hours when taking inventory

FileMaster provides a complete file management solution. Everything you need to get up and running—tags, readers and software—is included.

HOW MUCH TIME HAVE YOU SPENT TODAY LOOKING FOR LOST FILES?

Don't waste another minute! Call Checkpoint today at 1-800-257-5540, ext. 3236, and find out what RFID has done for World Bank, the National Aeronautics & Space Administration (NASA), the U.S. Department of the Interior, the U.S. Department of the Treasury and many other major organizations.
