

Building Peace of Mind

FireKing 

What are your most important documents?

How would losing these documents affect your business?

What are you doing to protect them?

Accounts
Receivable

Titles

Insurance
Policies

Customer
Lists

The right fireproof file is not just the answer. It's a series of questions.

Tax records. Customer lists. Accounts payable and receivable. Insurance policies. Computer records. Deeds, titles and licenses. Before you can decide how to best protect them, you need to ask yourself some hard questions.

But there's one question you don't have to ask:
What brand of fireproof file should I buy?

Fire King has been building fireproof files of unsurpassed quality for over 50 years. Our state-of-the-art manufacturing facility builds tens of thousands of FireKing® files for business, government, financial and personal use every year.

Our files carry the prestigious Underwriters' Laboratories® (UL) Class 350 1-hour Insulated Records Container with impact rating; meaning they have passed the UL 1700° fire endurance test, 2000° explosion hazard test, and 30-foot drop/impact test. And, we also offer the industry's only UL-rated 2-hour file.

The quality built into every FireKing file cabinet is the very best. We back up our quality claims with a lifetime product warranty and free replacement guarantee.

Our *lifetime warranty* on all mechanical or operable parts ensures that if a part malfunctions or breaks down during normal use, we will either repair or replace the part.

With our *free replacement guarantee*, if a FireKing file cabinet sustains any damage while protecting records from a fire, we will replace it free of charge.

For protecting your valuable information and your peace of mind, FireKing files are the best records protection you can buy.

Licenses

FireKing® Vertical Files

The full-size vertical file is FireKing's most popular model. These highly secure files carry Underwriters' Laboratories 1-hour fire rating with impact. Available in 2, 3 and 4-drawer sizes, as well as letter and legal widths, they come with high side drawer bodies for hanging files – no additional frames are required. A complete range of accessory and interior options are also available. A UL-listed high-security Medeco® key lock is standard. A variety of additional locking options is available. Plus, you can choose from nine standard colors (or any custom color you specify) to match your office décor.

FireKing Lateral files offer increased capacity and contemporary design.

FireKing Lateral Files

Our lateral files offer you all the features of our vertical files in a sleek design. They're fully equipped for both letter and legal hanging files—no additional frames are required. Available in 31", 38" and 44" widths in 2, 3 and 4-drawer sizes, with a UL-listed high-security Medeco® key lock. A variety of additional locking options is available. And like our vertical files, they are available in nine standard colors. Custom colors can be matched to your specifications on any file.

FireKing 25®

FireKing 25 files provide your important records with the protection they need while economizing your space and budget. They give you all the benefits of our larger-sized FireKing files in a competitively priced, 25" size. Available in 2 or 4-drawer models and letter or legal widths. FireKing 25 files are equipped with a UL-listed high-security Medeco key lock. Files come in four standard colors: black, sand, parchment and platinum.

FireKing's most economical files. The 22"-deep Turtle is perfect for the small or home office.

Turtle®

The compact 22" size of our Turtle files will give you a lifetime of records protection. Available in 2 and 4-drawer vertical models, Turtle files are the perfect fit for small or home office. Turtle files offer UL 1-hour fire protection with impact, and their small size makes them easily affordable. Both letter and legal-sized documents can be filed in a Turtle. A 4-pin key lock is standard. Files available in parchment color only.

FireKing® Protection Plus™

For additional security, we offer the Protection Plus Safe-In-A-File and the Protection Plus Electronic Lock File. The Safe-In-A-File's design cleverly conceals a 2.4 cubic foot, burglary-resistant safe behind a false top drawer panel. Both files include UL 1-hour fire and impact protection. Exterior is available in nine standard colors. The interior is only available in parchment or platinum.

When added security is needed, FireKing's Protection Plus files offer a concealed safe in the top drawer.

When added protection is needed for high-risk fire areas, a FireKing Two-Hour file is the answer.

FireKing Two-Hour Vertical Files

The ultimate in fireproof records protection. These are the only American-built insulated files with a 2-hour fire and impact rating from Underwriters' Laboratories. That's because they are made with Thermocell II®, a proprietary insulation which provides twice the protection of other brands. Available in both letter and legal sizes. A UL-listed high-security Medeco® key lock comes standard. Nine standard colors to choose from.

Primarily used in banks, these Card, Check and Note files offer flexibility for unique filing requirements.

4-2536-C

6-2552-C

FireKing® Card, Check and Note Files

Available in 4 and 6-drawer models. All models come with a UL 1-hour fire and impact rating. All Card, Check and Note files feature a UL-listed high-security Medeco key lock. A wide variety of additional locking options are available to secure confidentiality. Plus, these files offer the option of 2 or 3-section card trays and inserts to allow you the flexibility your filing systems require. They come in nine standard colors or any custom color you specify.

FireKing MediaVault™

CDs, tapes, diskettes, microfiche and data cartridges are more sensitive to heat than paper records, which is why there's the MediaVault. It's specially designed to protect your electronic records from the harmful effects of heat, as well as humidity, dust and magnetic fields. It's the only media safe of its size to carry the Underwriters' Laboratories Class 125 1-hour rating for insulated record protection equipment. Affordable and compact, the MediaVault works as a stand-alone unit.

Executive Wood Files

Provide your office with the beauty of fine hardwood furniture as well as unmatched fire protection. On the outside, our Executive Wood files showcase genuine hardwood with hand-rubbed finishes. On the inside, they provide the fire protection that only a FireKing® file can deliver.

Executive Wood files are finished in walnut, oak or mahogany.

Traditional or contemporary styles are available, depending on the image you want to project. Wood files are available in all standard vertical and lateral sizes.

FireKing Transformer®

"Transform" your FireKing file into a fireproof, heat-resistant safe for your computer records. When stored inside a FireKing file, a Transformer will protect your CDs, tapes, diskettes, microfiche and data cartridges from the harmful heat and humidity generated by a fire for up to one hour. They also will protect data from magnetic interference and theft. Transformers are available in 2 sizes: one for legal and lateral files, the other for letter-sized fireproof files.

Lock Options

See our price list for individual lock option prices. Lock options not available on FireKing® 25 and Turtle files.

1. Standard key lock as general control. All key locks are standard on the right side of the top drawer for all FireKing models.
2. All drawers with separate locks. Independent locks for additional drawers with no general locking may be ordered.
3. Multiple control of all drawers with additional locks on individual drawers. Order additional key locks for drawers as required, for the desired level of multiple control.
 - One extra lock for dual control.
 - Two extra locks for triple control.
 - Three extra locks for quadruple control.
4. Four-drawer, split-locking system. Order one extra lock for independent access of 2 areas in one file. The standard lock will control the top 2 drawers. The additional lock will control the bottom 2 drawers.
5. Combination lock as general control. All regular and manipulation-proof combination locks may be ordered with key locking dials that prevent the operation of the combination lock until the dial key lock is opened.
6. Independent combination drawer locking. Specify drawers to be controlled separately by extra combination locks. One lock may be used as general lock for all other drawers.
7. Combination split locking system. Order 2 locks for independent access of 2 areas in one file. The first lock will control the top 2 drawers. The additional lock will control the bottom 2 drawers.
8. Multiple drawers with separate combination locks. Independent locks for additional drawers with no general locking may be ordered.
9. Special combination/key lock option. A combination of key and combination locks can be installed with the key lock providing general control, and the combination lock providing either independent or dual control on each drawer.

Accessories

Customize your file. Our line of accessories offers simple ways to fulfill your filing requirements—while protecting your valuable information like only FireKing products can. See back specification page for more information.
