

# NO OTHER FILE HAS MORE FIREPOWER.

## FIREKING 2-HOUR SERIES FILING CABINETS

Introducing the ultimate weapon for protecting valuable documents against fire — the FireKing 2-Hour file. These files are the only American-built insulated files with a 2-hour fire rating from Underwriters' Laboratories. You can't buy better protection for your important documents anywhere in the world.

Fire King's construction methods are legendary. And like all FireKing filing cabinets, the new 2-Hour series is designed to provide a lifetime of protection and trouble-free service. Each cabinet is backed by our Lifetime Product Warranty, which means we will repair or replace any malfunctioning

parts free. In addition, we offer a Free Replacement Guarantee. If a FireKing filing cabinet sustains any damage while protecting its documents from a fire, Fire King will replace it free of charge.

Our 2-Hour files are specifically designed to meet all office specifications. They can hold both letter and legal sizes. Their high drawer sides eliminate the need for hanging file folder frames. And each one has a UL-listed Medeco® key lock for added security.

If you want to have the world's very best protection for your important documents, add the FireKing 2-Hour to your arsenal.

# Cabinet Features

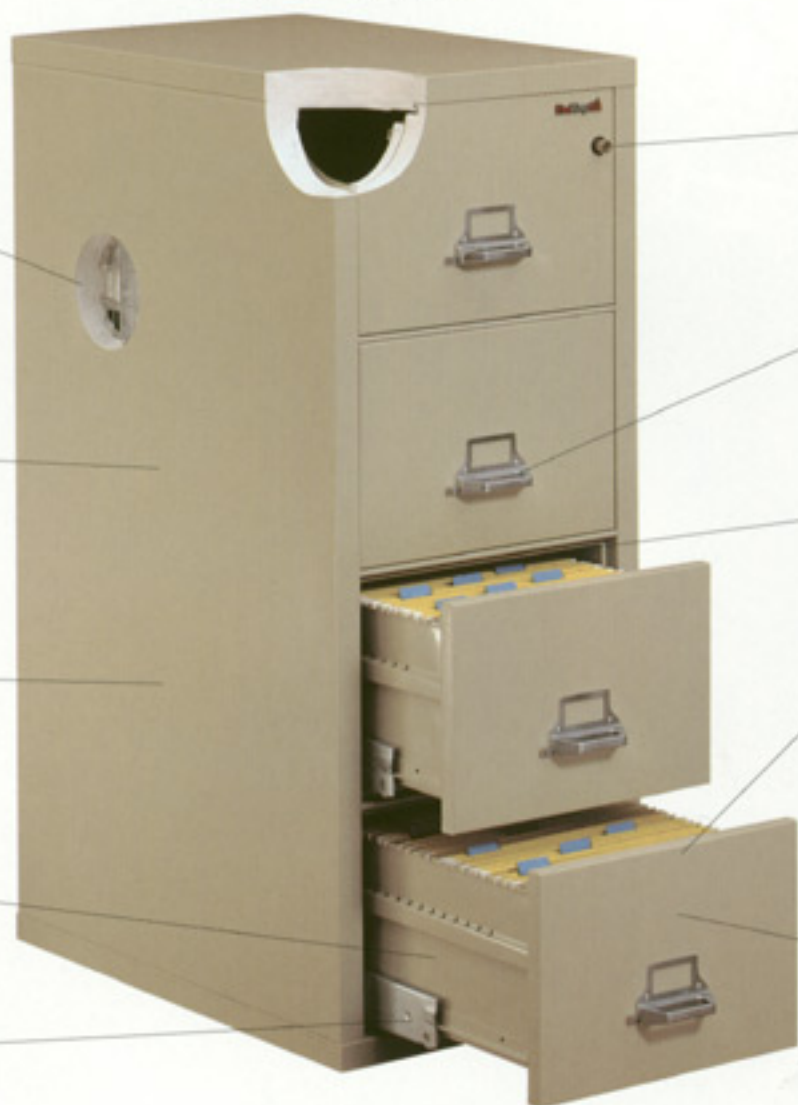

**Insulation** is Thermocell® II, an advanced, proprietary formula with enhanced thermal properties and is reinforced by a steel lattice made of 14-gauge, galvanized welded-steel wire (which provides twice the fire and impact protection of other brands).

**Field-replaceable steel panels** are up to 50% thicker than other makes of fire-resistant files.

**Finish** is an environmentally friendly, electrostatic powder coating up to three times thicker than conventional painted files, applied to all sides, including bottom.

**Drawer bodies** are built with high sides for use with hanging folders — no additional frames are required.

**Drawer suspensions** are maintenance free and guaranteed for life.

**Drawer locks** on all files provide general locking of all drawers through either UL-listed Medeco® high-security key locks or UL-listed combination locks or both.

**Drawer pulls** are surface mounted to allow for extra insulation inside the drawer heads.

**Insulation between all drawers** makes each one a separate insulated container.

**Lock bypass lever** allows access to certain drawers while others remain locked.

**Drawer heads** are formed of welded steel and filled with our proprietary Thermocell® II insulation and gasketed to provide optimal thermal performance in the intense, 1850°F heat of the UL fire test.

## Specifications

Catalog No.	Description	Inside Dimensions			Outside Dimensions			Approx. Shipping Wt.
		Height	Width	Depth	Height	Width	Depth	
4-2157-2	Four Drawer Legal	11 25/32"	15 1/4"	26"	57"	21 7/32"	32 1/16"	900 lbs.

2-1929-2	Two Drawer Letter	11 9/16"	12 15/16"	25 1/8"	29 15/32"	18 29/32"	31 7/32"	482 lbs.

All our cabinets meet the rigorous standards of the Underwriters' Laboratories' Class 350 2-Hour Record Protection Equipment Test for Fire and Impact. This means they have passed stringent tests for fire endurance, explosion hazard and impact.

Fire King offers a variety of accessories in many standard sizes for organizing and protecting specially sized records. What's more, we can create custom accessories and sizes to meet your filing needs. Additional lock options are also available. Ask your dealer, or call our Customer Service Department for more information at (812) 948-8400.
