

# Standard Powder Coat Finishes

## Powder Coat Finishes

Russ Bassett paint finishes are baked powder coatings of the highest quality.

Powder coat finishes provide unsurpassed resistance to scratches, chips, fading and chemicals. In addition to superior durability, epoxy polyester hybrid powder coat finishes are completely inert and exhibit no off-gassing or chemical leeching, which may harm microfilm and other valuable archival materials.

Application of powder coat finishes requires no toxic solvents and generates no hazardous waste. Unlike wet paints, powder coating is environmentally friendly.

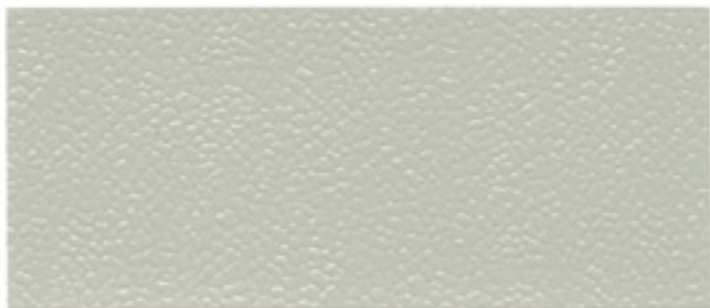

## Textured Finishes

All Russ Bassett colors are available in a choice of smooth or textured finish. Unless otherwise specified at the time of order, cabinets will ship with a smooth finish. To specify a textured finish, add a "-T" suffix to the color identification number.

## Custom Colors

Paint colors other than Russ Bassett's standard finishes are also available at an additional charge. For matching purposes, a color sample (preferably on steel) must be submitted with your order.

Contact Customer Service for lead times and upcharges on custom colors.

Neutral Gray Textured

300-T

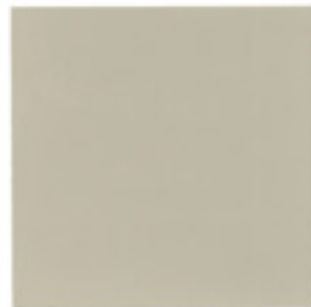

White 100

Putty 501
