AURORA SHELVING STORAGE SYSTEMS

Aurora's full range of standard sizes of uprights and shelves allow for a variety of storage configurations to store virtually any filing and storage media in the area available. A variety of depths and widths are available to meet every need whether it is letter, legal, x-ray or library shelving. Backs are available to fit all height and width combinations. Consult factory for special sizes of all Aurora components.

OPTIONS

Hard Working...

Aurora Shelving is available in many different configurations including beautiful wood finishes. The common factor among all of the Aurora Shelving products is that they are built to withstand all that you can throw at them. Whether it's an executive office or an industrial warehouse Aurora Shelving can handle the load.

Beautiful...

Aurora Shelving is perfect for any office or library environment. With fine wood accents or in custom metal colors Aurora Shelving can look good in any setting.

Expandable...

Aurora Shelving is easily expanded as your needs grow. The Quik-Lok® system allows for easy additions and subtractions of units. Units can be easily moved to other areas.
