MasterStep® AlumaStep®

Designed to compliment any business interior, MasterStep® and AlumaStep® rolling ladders are offered in 13 modern colors. These office quality ladders offer a unique blend of strength, appearance and safety for use in the office or the shop.

The one piece welded construction meets or exceeds the strength and dimensional requirements of OSHA 1910.29, ANSI A14.7 and CAL-OSHA Title 8 safety standards. Aluminum alloy construction is available for those applications that require cleanliness, corrosion resistance or non-magnetic use. A tapered ladder design with large caster housings provide excellent stability while in use. Our attention to quality assures you of a product that is both attractive and durable.

One through six step sizes are available with single or double top steps. Left, right or double handrail arrangements and a removable filing shelf are offered for added convenience. MasterStep® and AlumaStep® ladders are equipped with easy rolling 2" spring casters for quick start and stop mobility. Comfortable climbing steps and top platforms are covered with rubber matting for sure footing.
